Associate of Arts. The Associate of Arts degree includes several options selected from courses listed below. Use this page as a graduation checklist with your advisor, filling in each credit as you earn it. By finishing your AA degree requirements before transferring to a public four-year institution in Colorado, you may expect, upon acceptance, to transfer 60 credits and enter the four-year institution with junior standing. In liberal arts & science majors, you will be able to finish a BA degree with 60 additional credits at the transfer institution. As an example, if you complete the AA degree program with 38 credits of state-guaranteed general education credits, all of your course credits (up to 60 hours) that applied to your degree requirements at Colorado Mountain College will be guaranteed to transfer, upon acceptance, to a four-year college or university.

If you do not finish the full 60 credit AA degree then non-state guaranteed general education courses (* courses) may transfer on a course by course basis. This decision is at the discretion of the receiving institution, please see your advisor. If you change your major between two liberal arts programs, the same general education guarantee applies, however, students who change their major after the first 60 hours accept the responsibility that this decision may require additional courses. This will help you avoid any confusion or disappointment as you work toward completing your degree. Ask your advisor to review and initial this form each time you meet.

See the section on Scholarships and Awards for scholarship opportunities related to this program. For a list of CMC campuses offering this program, please see the *Where Our Programs are Offered* table on page XX.
