

# CMC School of Business

## Our Mission:

CMC's business programs strive to develop capable, confident, and creative business professionals skilled in ethical leadership, problem solving and communication who can serve organizations in their mountain communities (and beyond).

## Our Vision:

Shaping future sustainable business leaders through innovation in education and hands-on learning to respond to the evolving needs of society.

## Values

**People:** Our students, faculty and staff come from diverse global backgrounds. We embrace different perspectives and recognize that diversity breeds the best ideas and outcomes.

**Learning:** Small classes, multiple modalities, personal contact, and project-based learning drive the classroom experience. Our faculty draw upon their substantial body of business involvement to deliver low cost, high value programs.

**Community:** Our uniqueness is synonymous with that of our communities and our collective success is paramount. We support our service area partners through student live service and relatable skills development.

**Sustainability:** Our programs have been and will increasingly be influenced by, and in turn shape, the college's commitment to sustainability.
